

## **Banned from Agenda 5/12/09**

The most important agenda item is #10 on redistricting. There are comments by Supervisor Gallagher at the end of the meeting that augment his comments during the discussion of item #10. Be sure to watch the meeting from item #10 on to get the full content.

The Auditor-Controller's report which was banned from the agenda also occurs at the end during the public participation. [Click here for that report.](#)

### FPPC Violates Auditor's Constitutional Right of Due Process

(This addresses and explains the report in the Appeal-Democrat regarding this matter)

Overview: This information was presented to the Board of Supervisors at the meeting held at Yuba City High School, October 14, 2008, informing them that \$1,836.46 was being reimbursed to the County under protest with no admission of guilt or wrongdoing to satisfy a Fair Political Practices Commission complaint about the Citizens Report. What's also noteworthy, besides the State violating the Auditor-Controller's right of due process guaranteed by Articles 5 and 14 of the U.S. Constitution, is the information in the Citizens Report is the same as the Citizens Report published on the County's own website. The so-called "mass mailing" was the inclusion of the report in the July 2008 issue of The Shopper. The two factors that constitute an FPPC violation were over 200 copies were sent (28,302 copies at 6 ½ cents each) and the report "featured" an elected official, by virtue of including the name, office and signature of the person responsible for the report
